

Be creative and deliver!

About Us

VINT Consult LLC is a consulting company founded in Belarus in 2011. Initially, the company was engaged in insurance brokerage and financial consulting, but as it grew, it selected activities in accordance with the needs of the clients.

Today the team allows us to provide a wide range of services. For comprehensive B2B assistance we use the services of partners from other areas.

Since 2019, we have been developing digital consulting practice. We design solutions which implementation we outsource to IT partners. There are plans to develop our own IT unit.

The consulting company considers its mission to offer exclusively useful services to the client. VINT Consult has an author's practice "Creatoring", which is to provide creative services for the creation and implementation of business ideas from scratch.

-  **Strategy:** business strategy development, innovation management and risk management.
-  **Operations:** organizational design and business process modelling.
-  **Marketing:** marketing strategy, company promotion, product consulting, partner search.
